

# **PALISI Network Fall Meeting 2025**

## **Agenda**

September 8-11, 2025

**Hotel Omni Mont-Royal**

1050 Sherbrooke St W, Montreal, Quebec H3A 2R6, Canada

The background of the page features a photograph of a large steel truss bridge, likely the Tacoma Narrows Bridge, spanning a body of water. In the distance, a city skyline is visible under a twilight sky, with lights from buildings and streetlights reflecting on the water. A thick, dark blue wavy banner is positioned at the top left of the page, partially obscuring the sky.

**\*FIRST EVER!- PALISI Datathon Workshop**

**Saisons A/B**

*Hosted by PEDAL, BACON, NEAR4KIDS*

*On behalf of the PEDAL, NEAR4KIDS, and BACON leadership, we'd like to invite you to participate in a PALISI "datathon" event. In the session, we will match PALISI members with members from NEAR4KIDS /BACON/PEDAL to work together on data analysis for a project related to NEAR4KIDS or BACON, helping to expose individuals to additional analytic/coding techniques, increase collaboration across subgroups, and potentially result in publications. You can reference the data dictionaries for the NEAR4KIDS and BACON data sets [here](#).*

*If this sounds interesting and you have a research project in mind using NEAR4KIDS or BACON data with methods that might be more nuanced than typical database studies (e.g., causal inference modeling), please send an email to [PEDAL@palisi.org](mailto:PEDAL@palisi.org) with an overview of your question and any potential collaborators.*

*If you don't have a specific question but are interested in participating, please let us know that as well. We will review project ideas, make selections, and connect interested individuals in advance of the meeting.*

*We look forward to seeing everyone at this first PALISI datathon event!*
